Renaissance to Sponsor Internet & Mobile Boot Camp – Despite the Recession

TEL AVIV, Israel - March 12, 2009 - Renaissance Computer Systems Ltd. announced today that it is sponsoring the Internet & Mobile Boot Camp , being run by Boot Camp Ventures on March 16th 2009, in Tel Aviv.

"We are honored to sponsor this unusual and exciting event" said Jackie Goldstein, founder and President of Renaissance Computer Systems. "Especially in these challenging economic times, it is inspiring to meet determined young companies and to discuss with them how to effectively develop and market their products."

Boot Camp Ventures (www.bootcampventures.com) designs a series of unique interactive forums to provide executives and entrepreneurs a rare real-time exchange with potential investors. At the Internet & Mobile Boot Camp, a select number of innovative Israeli Internet and Mobile Companies will present in a dynamic and intense format before an exclusive audience of seasoned investors from the US, Israel and Europe

According to Esther Loewy, co-founder of Boot Camp Ventures, "Emerging companies, as well as the investors that finance them, are watching company expenses very carefully. By offering Boot Camp companies the opportunity to outsource elements of development, companies such as Renaissance Computer Systems enable entrepreneurs to focus their efforts to obtain traction in the market - leading to commercial success."

Renaissance Computer Systems Ltd. (<http://www.renaissance.co.il/>) provides custom software development and strategic technology consulting for a variety of startup ventures and enterprises around the world. With its innovative, reliable and adaptable software solutions, Renaissance enables companies to master their technology challenges with a superior quality, cost effective, outsourcing alternative.
